

Text Formatting Showcase

Labels, Text Blocks, Numbers, and Dates

Label Components - Simple Text Styling

Labels are perfect for headings, captions, and short text that needs styling. They support font size, weight, color, and alignment.

Default Label - 10pt regular text

Large Heading

Medium Subheading

Small Caption

Bold Important Text

Centered Title

Success Message

Warning Text

Text Blocks - Multi-line Content

Text components are designed for longer, multi-line content like paragraphs, descriptions, and documentation. They support line height control and maximum width constraints for optimal readability.

Executive Summary:

Our Q4 2024 results exceeded expectations across all key metrics. Revenue grew 23% year-over-year, reaching \$12.4M, while customer acquisition increased by 34%. The successful launch of our Enterprise tier contributed significantly to this growth, with 145 new enterprise customers onboarded during the quarter.

Technical Details:

The system architecture has been optimized for high availability and scalability. We implemented a microservices-based approach using Kubernetes for orchestration, Redis for caching, and PostgreSQL for persistent storage. Response times improved by 45% compared to the previous quarter.

Conclusion:

Looking ahead to 2025, we remain focused on innovation and customer success. Our product roadmap includes several exciting features that address customer feedback and market demands.

Currency Formatting

NumberField components provide sophisticated number formatting including currency, percentages, and custom patterns. Perfect for financial reports and dashboards.

US Dollar Amounts:

Quarterly Revenue:

\$ 12456789.45

Operating Expenses:

\$ 8234567.12

Net Profit:

\$ 4222222.33

Euro Amounts:

European Sales:

€ 3456789

British Pound:

UK Revenue:

£ 2345678.5

Japanese Yen:

Japan Sales:

¥ 456789000

Percentage Formatting

Percentage values are commonly used in reports for growth rates, market share, conversion rates, and performance metrics.

Performance Metrics:

Year-over-Year Growth:

23.5 %

Market Share:

34.2 %

Customer Retention Rate:

94.8 %

Conversion Rate:

3.7 %

Employee Satisfaction:

87.6 %

System Uptime:

Memory Usage:

7.8 GB

Date Formatting

DateField components support multiple date formats for international audiences. Common formats include ISO 8601, European (DD.MM.YYYY), and US (MM/DD/YYYY) styles.

ISO 8601 Format (YYYY-MM-DD):

Report Date:

2024-03-15

Period End:

2024-12-31

European Format (DD.MM.YYYY):

Invoice Date:

2024-03-15

Due Date:

2024-04-15

US Format (MM/DD/YYYY):

Contract Start:

2024-01-01

Contract End:

2024-12-31

Date Format Examples

Key Dates in Different Formats:

Company Founded:
